April 1, 2012

We hereby certify that the components of the Green Friendly Paints (GFP) #350, #550, #750 and Ultra-ECO series are comprised of the following raw materials that are extracted, processed or manufactured within 800 km (by truck) or 2400 km (by rail or water) of our facility in Vaughan.

Raw Material Component	% mass	Manufactured, Extracted or Processed locations
Water	24	Woodbridge, Ontario (10km)
Polymer	26	Westhill, Ontario (38km)
Calcium Carbonate	20	Perth, Ontario (340km)
Clay	10	Georgia (<2400km by rail)
Titanium Dioxide	18	Delaware (<800km)
Miscellaneous additives	2	Various (<2400km)
<b>Ultra-Eco Series</b>		
Water	14	Woodbridge, Ontario (10km)
Polymer	16	Westhill, Ontario (38km)
Calcium Carbonate	12	Perth, Ontario (340km)
Clay	6	Georgia (<2400km by rail)
Titanium Dioxide	11	Delaware (<800km)
Miscellaneous additives	1	Various (<2400km)
Recycled Paint	40	St. Catherines, Ontario (110km)

With respect to MRc4 Recycled content, the Ultra-ECO series of GFP paint incorporates 40% Post-Consumer recycled paint. The #350, #550 and #750 contains 15% (by weight) in house recycled content as DuROCK's underground water filtration system enables us to clean and filter waste water from the mixing tanks and reuse it in our GFP products.

If you require any additional information or have any concerns, please do not hesitate to contact me.

Sincerely,  
*Dolores Ursini*  
Dolores Ursini,  
Vice President.
